## LET US DO GOOD

The Stephen Siller Tunnel to Towers Foundation was established in memory of firefighter Stephen Siller, who sacrificed his life to save others on September 11, 2001. Our Foundation strives to follow in Stephen's footsteps and do good by making a positive and lasting impact in the lives of others, especially those who sacrifice life and limb to protect us.

The Tunnel to Towers Foundation honors our heroes that risk their lives in the line of duty by providing specially adapted *smart homes* to catastrophically injured service members and mortgage-free homes to fallen first responder and Gold Star families with young children.

This is Stephen's legacy.

Please join us on our journey and help us forge these Footsteps to the Future.

## GENERAL MOTORS

The Stephen Siller Tunnel to Towers Foundation and General Motors are joined in our commitment to our men and women in uniform. In 2015, GMC (a division of General Motors) named the Tunnel to Towers Foundation as its national charity of choice.

Together, we have been on an incredible journey to honor our military, first responders, and their families by providing them with forever homes.
